Person making Deposit: Steve Wong

COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

Mail Stop Issue Fee
Commissioner for Patents
PO Box 1450
Alexandria, VA 22313-1450

Sir:

The Examiner indicates:

[the prior art does not disclose or make obvious a method comprising forming leads, and clamping tabs located at a fourth level integral with a die pad located at a third level, and forming a wirebonding device overlying portions of at least two leads and portions of at least one clamping tab including all the limitations of the independent claim.

In contrast, while the use of a clamping device for wire-bonding is known in the art as shown in Otsuki et al. (U.S. 6,133,623), and the use of tabs integral with die paddles are known in the art as illustrated in Chiu (U.S. 5,358,905) and Inaba (U.S. 4,258,381), the tabs fail to show a wire-bonding device overlaying portions of the tab and leads.]

Applicant concurs with the reasons as stated by the Examiner insofar as they comprise a summary, and are exemplary and not limiting. Accordingly, the scope of the claims must be determined from the literal language of each as a whole, as well as equivalents thereof.

Respectfully submitted,

James R. Duzan
